Dear Tom,

We would like to thank you so very much for the wonderful job of putting siding and windows in our home. We are very pleased with the way it looks and we have received so many compliments from neighbors and friends. One neighbor who has siding on her home said, "She would like to tear her siding off and get some like ours". Her is only a few years old. Our family is really pleased with the way it looks. I hope you got some pictures, I'll see if I can find some before picture for you to show. This is a old house with a add-on and now it looks like a cottage.

Your crew was very nice and polite. We wish to thank you again.

Sincerely,

Robert and Shirley McCrea
