To Whom It May Concern:

I would highly recommend Tom Minor for any siding job. Mr. Minor sided our house and we think he did an outstanding job.

During my work career, I did work in organizational development and quality. Believe me! Mr. Minor gives 110%. He cares about the customers' needs and expectations.

He has a vast amount of experience (knowledge) and knows what he is doing. He communicates very effectively with the customer to alleviate any misunderstandings.

He is very dependable. If he says he will be there at eight o'clock, you can count on it. If something comes up, and he can't make the appointment, then he calls and explains why, and re-schedules.

Mr. Minor is very creative; We had some hard challenges when he did our house. I remember we had a special problem with the middle horizontal trim. It was flat and when the sun shown on it, you could see the waves in the metal. We discussed this with Tom and he took it down and created a three dimensional design, like a crosshatch so as not to see the Waves.

We welcome you to come look for yourself or give us a call. Our phone number is 208-888-2195.

Sincerely,

Ty and Eve Sindon
